

JORDAN YOERGER, PMP, MBA

Director, Enterprise Technology Portfolio & Delivery

Accomplished Project/Program Management Professional with a proven 8-year history of effectively leading and delivering projects/programs of varying scope to successful completion. I have 15 years of experience in manufacturing industries such as consumer products, construction equipment, tire innovation, polymer processing, plastic injection molding, and drug (topical) industries. I have been recognized as a strategic leader with strong analytical abilities and team-building expertise. Expertise in commercial strategy, stakeholder engagement, financial acumen, customer service, PMO continuous improvement, PMO standards, and global product launches, with a strong history of delivering high-impact results. Recently at Fortune Brands Innovations, this includes \$80M in projected incremental net sales from projects launched over the past three years. I am adept at aligning business objectives with customer needs, optimizing supply chain and operational efficiencies, and mentoring project managers to uphold best practices. Committed to structured execution, risk mitigation, and achieving measurable business growth.

PROFESSIONAL EXPERIENCE

DIRECTOR, ENTERPRISE TECHNOLOGY PORTFOLIO & DELIVERY <i>Great Day Improvements, LLC</i>	Jan 2026 - Present <i>Twinsburg, OH - HYBRID</i>
- Stood up the Enterprise PMO from the ground up in 4 months, delivering a complete and scalable operating model including governance framework, project intake and prioritization processes, methodology, and reporting standards across the enterprise. - Lead the enterprise project and portfolio management function across business applications (ERP, CRM), product development, and cross-functional initiatives, turning complex work into structured, transparent delivery aligned to business value. - Built and deployed a suite of internal tools using Claude to streamline EPMO operations, including a Resource Manager tool, Accounting Treatment Calculator, Project Priority Scoring Calculator, and SME Repository. - Co-lead the internal development of a Large Language Model (LLM) to support enterprise productivity and decision-making across the organization. - Partner with senior leadership to align the project portfolio with business priorities, financial plans, and capacity constraints, and to define KPIs, business value, and success criteria for each project in advance. - Establish standards, methodologies, and governance practices for projects and programs spanning ERP, CRM, and product development initiatives across six home improvement brands. - Direct portfolio-level reporting on milestones, dependencies, risks, financials, and KPI performance, providing a consolidated executive dashboard with clear status, risk, and KPI reporting for all Tier 1 and Tier 2 projects. - Manage vendor relationships related to ERP, CRM, and other strategic platforms, including performance tracking, deliverable oversight, and integration into the enterprise portfolio. - Present enterprise project and portfolio status, including KPI performance, to the steering committee and executive leadership on a regular cadence, and provide hands-on delivery leadership for high-priority or complex projects when the portfolio requires additional support.	

SENIOR MANAGER, GLOBAL PROJECT MANAGEMENT**July 2025 - Jan 2026****Momentive Technologies****Strongsville, OH - HYBRID**

- Led the development and implementation of a centralized PMO, establishing governance frameworks and standardized methodologies that aligned global projects with strategic business objectives across all business units.
- Directed a global portfolio of capital expenditure (CapEx) and cross-functional initiatives, ensuring timely delivery within scope and budget across diverse geographies.
- Led financial oversight of CapEx projects, reviewing and approving financial models including NPV, IRR, and cash flow forecasts to support investment decisions.
- Leveraged AI and LLM technologies to analyze data and create internal applications for continuous improvement initiatives.
- Built and mentored a high-performing team of project managers and engineers; established performance metrics and conducted regular portfolio reviews to monitor progress, optimize resource allocation, and lead internal project management trainings.
- Collaborated with executive leadership to align project priorities with corporate strategy, implemented robust risk management strategies, and facilitated cross-functional coordination to ensure seamless execution and resolution of interdepartmental challenges.

SENIOR PROJECT MANAGER / PROJECT MANAGER**Jan 2022 - July 2025****Fortune Brands Innovations****North Olmsted, OH - REMOTE**

- Achieved \$80M in forecasted incremental net sales through successful project launches over a 3-year period, while managing a 3-year product roadmap valued at ~\$160M in forecasted incremental net sales.
- Led cross-functional teams through global product development projects, delivering a \$50M-\$60M (average) project portfolio with strategic oversight for 100+ global team members while maintaining strict timing, performance, cost, and quality objectives.
- Mentored and onboarded four project managers, increasing PMO resource capacity by 200%; created standardized project templates for three Fortune Brands business units, implemented a lessons learned process, and developed a supplier Statement of Work and uniform meeting minutes documentation for the PMO.
- Served as The House of Rohl's subject matter expert for new product introductions, delivering monthly global stakeholder updates and presenting stage-gate reviews to C-suite executives to secure project spend and capital expense approvals.
- Directed tariff mitigation initiatives and partnered with global finance teams to refine project financials; drove strategic growth by developing vendor contracts and maintaining strict process discipline through Fortune Brands' PPM system.
- Utilized Generative AI for project managers to increase productivity by at least 50% on routine tasks; following staff attrition in a global plant, served as acting manufacturing lead, defining clear processes, clarifying NPD launch ownership, and managing expectations through detailed timelines.

GLOBAL PROJECT MANAGER**Nov 2020 - Jan 2022****GOJO Industries, Inc.****Akron, OH - REMOTE**

- Led cross-functional projects for global growth, enhancing international collaboration.
- Managed global alignment calls, ensuring project scope consistency across regions.
- Orchestrated alignment calls with international regions, ensuring project scope clarity while working closely with hospital personnel and consultants on clinical research studies.
- Analyzed clinical market data, optimizing hospital resource service and product development.
- Identified portfolio gaps, driving new product initiatives with data-driven insights.
- Implemented innovative project management tools such as Smartsheet that streamlined workflow processes while collaborating cross-functionally through an international lens.
- Ensured new product launches adhered to regulatory requirements.
- Supervised and mentored co-op students through GOJO's summer program.

PROGRAM MANAGER**Mar 2018 - Jun 2020****Carlisle Brake & Friction****Solon, OH**

- Led multi-million-dollar projects to completion within our aftermarket racing brake division and commercial off-highway friction division, enhancing team collaboration and efficiency.
 - Implemented Smartsheet as standard enterprise tool, improving project management for all program managers.
 - Managed \$60M NPI and \$200M product portfolios, optimizing resource allocation and customer support.
 - Facilitated regular stakeholder meetings and weekly customer calls, coordinating cross-functional teams to manage resources effectively and prevent workflow interference.
 - Collaborated with key customers on contract management and commercialization of new product introductions.
 - Presented monthly executive-level project reviews, including risk mitigation plans and product rationalization strategies.
 - Worked as a Product Development Engineer for NPI launches in the Hawk Performance Racing Division from 2016-2018.
-
